

PROPOSED DESTINATION BROADWATER PROJECT

TABLE OF CONTENTS

LIST OF TABLES

LIST OF FIGURES

TABLE OF CONTENTS

	Page
Executive Summary.....	ES-1
List of Acronyms and Abbreviations.....	AA-1
Table of Contents.....	TC-1
List of Tables.....	LT-1
List of Figures.....	LF-1
1.0 PURPOSE OF AND NEED FOR ACTION	1.1-1
1.1 Introduction.....	1.1-1
1.2 Project Overview.....	1.2-1
1.2.1 Region of Influence.....	1.2-1
1.3 Purpose of and Need for Proposed Action.....	1.3-1
1.4 NEPA Process.....	1.4-1
1.4.1 NEPA Public Involvement.....	1.4-1
1.4.2 Notice of Intent.....	1.4-1
1.4.3 Scoping.....	1.4-1
1.4.3.1 Public Scoping.....	1.4-2
1.4.3.2 Agency Scoping.....	1.4-2
1.4.3.3 Scoping Issues, Questions, and Concerns.....	1.4-3
1.4.4 Cooperating Agencies.....	1.4-3
1.4.5 Public Review of Draft EIS.....	1.4-4
1.4.6 Public Meeting.....	1.4-4
1.4.7 Final EIS.....	1.4-4
1.5 Project Approval Framework.....	1.5-1
1.5.1 Federal Agency Responsibilities.....	1.5-1
1.5.2 State Agency Responsibilities.....	1.5-2
1.5.3 City and County Responsibilities.....	1.5-4
1.5.4 Applicable Policies.....	1.5-4
2.0 ALTERNATIVES, INCLUDING THE PROPOSED ACTION.....	2.1-1
2.1 Introduction.....	2.1-1
2.2 Description of Alternatives, Including the Proposed Action and	

No-Action Alternative.....	2.2-1
2.2.1 Alternative 1: The No-Action Alternative.....	2.2-1
2.2.2 Alternative 2: The Proposed Action.....	2.2-4
2.2.3 Alternative 3: The Dispersed-Sites Alternative.....	2.2-12
2.2.4 Alternative 4: The High Density Alternative.....	2.2-17
2.2.5 Alternative 5: The Minimal Fill Alternative.....	2.2-19
2.3 Description of Alternatives Considered but Eliminated from Detailed Study.....	2.3-1
2.3.1 Develop the Proposed Action at an Alternative Location in Coastal Mississippi	2.3-1
2.3.2 Develop a Land-Based Casino Destination Resort in Coastal Mississippi.....	2.3-2
2.3.3 Develop a Large Casino and Hotel Development at an Alternative Single Site in Coastal Mississippi.....	2.3-2
2.3.4 Confine All New Development at the Broadwater Resort to the North of US 90.....	2.3-2
3.0 AFFECTED ENVIRONMENT.....	3.1-1
3.1 Coastal Processes.....	3.1-1
3.1.1 Coastal Physical Processes.....	3.1-1
3.1.1.1 Coastline Changes and Hurricanes.....	3.1-1
3.1.1.2 Water Levels.....	3.1-1
3.1.1.3 Wind Conditions.....	3.1-3
3.1.1.4 Wave Conditions.....	3.1-4
3.1.2 Shoreline and Beach Processes and Conditions.....	3.1-6
3.1.2.1 Sediment Transport.....	3.1-7
3.1.3 Coastal Circulation.....	3.1-9
3.1.3.1 Large-Scale Tidal and Wind-Drive Current Modeling.....	3.1-10
3.1.3.2 Previous Wind and Tide-Driven Circulation Modeling..	3.1-10
3.1.3.3 Nearshore Circulation Modeling.....	3.1-11
3.1.3.4 Local Wave-Driven Current Modeling.....	3.1-11
3.1.4 Marina Circulation.....	3.1-12
3.1.5 Storm and Hurricane Conditions and Vulnerability.....	3.1-12
3.1.5.1 Historical Data.....	3.1-12
3.1.5.2 FEMA Classification.....	3.1-13
3.1.5.3 Wave Vectors and Hot Spots.....	3.1-14
3.1.5.4 Return Periods of Extreme Events.....	3.1-14
3.1.5.5 Vulnerability.....	3.1-15
3.2 Geology and Soils.....	3.2-1
3.2.1 Soils.....	3.2-1

3.2.1.1	General Soil Characteristics.....	3.2-1
3.2.1.2	Soils at Alternative Sites.....	3.2-2
3.2.2	Sediments.....	3.2-3
3.2.2.1	Sediment Characteristics in the Mississippi Sound and at the Broadwater Site.....	3.2-3
3.2.2.2	Sediment Characteristics in the Lower Biloxi Bay.....	3.2-7
3.2.3	Extractable Mineral Resources.....	3.2-8
3.3	Water Resources.....	3.3-1
3.3.1	Groundwater Resources.....	3.3-1
3.3.1.1	Coastal Mississippi Aquifers.....	3.3-1
3.3.1.2	Groundwater Quantity, Levels, and Recharge.....	3.3-2
3.3.1.3	Groundwater Quality.....	3.3-3
3.3.1.4	Groundwater at the Broadwater and Alternative Sites.....	3.3-4
3.3.2	Surface Water Resources.....	3.3-4
3.3.2.1	Watersheds and Water Quantity.....	3.3-4
3.3.2.2	Water Quality.....	3.3-5
3.3.2.3	Point Source Pollution Discharges.....	3.3-15
3.3.2.4	Nonpoint Source Pollution.....	3.3-16
3.3.2.5	Water Quality Trends and Control Programs.....	3.3-21
3.4	Biological Resources.....	3.4-1
3.4.1	Ecological Communities.....	3.4-1
3.4.1.1	Coastal Mississippi.....	3.4-1
3.4.1.2	Biloxi Peninsula, Biloxi Bay, and Mississippi Sound.....	3.4-3
3.4.2	Wetland Resources.....	3.4-4
3.4.3	Terrestrial Resources.....	3.4-15
3.4.4	Aquatic Resources.....	3.4-17
3.4.5	Threatened or Endangered Species.....	3.4-21
3.4.5.1	Coastal Mississippi Region.....	3.4-25
3.5	Air Quality.....	3.5-1
3.5.1	Regional Air Quality Attainment.....	3.5-1
3.5.2	Attainment of Air Quality Standards.....	3.5-1
3.5.3	Current Air Quality Conditions within the ROI.....	3.5-3
3.6	Noise.....	3.6-1
3.6.1	Units of Exterior Noise Measurement Used in the Analysis.....	3.6-1
3.6.2	Existing Noise Sources.....	3.6-2
3.6.3	Existing Noise Levels.....	3.6-3
3.7	Cultural Resources.....	3.7-1
3.7.1	Resource Definition and Methodology.....	3.7-1

3.7.2	Prehistoric Archaeological Resources.....	3.7-2
3.7.3	Historic Resources.....	3.7-3
3.7.4	Other Resources	3.7-4
3.8	Land Use.....	3.8-1
3.8.1	Land Uses on the Broadwater Site, the Alternative 3 Sites, and Adjacent Properties.....	3.8-1
3.8.2	Patterns and Regional Context for Land Use.....	3.8-3
3.8.2.1	The City of Biloxi.....	3.8-3
3.8.2.2	The Three-County Region.....	3.8-6
3.9	Infrastructure.....	3.9-1
3.9.1	Water Supply.....	3.9-1
3.9.1.1	Water Supply Systems in Three-County Region.....	3.9-1
3.9.1.2	Potable Water Use.....	3.9-3
3.9.1.3	Potable Water Infrastructure at Alternative Sites.....	3.9-4
3.9.2	Wastewater.....	3.9-5
3.9.2.1	City of Biloxi Sewer System.....	3.9-5
3.9.2.2	Wastewater Treatment Facilities in the Three-County Region.....	3.9-6
3.9.2.3	Wastewater Infrastructure at Alternative Sites.....	3.9-9
3.9.3	Stormwater.....	3.9-9
3.9.3.1	City of Biloxi Stormwater System.....	3.9-9
3.9.3.2	Stormwater Infrastructure at Alternative Sites.....	3.9-10
3.9.4	Solid Waste and Hazardous Waste.....	3.9-11
3.9.4.1	Solid Waste System.....	3.9-11
3.9.4.2	Municipal Solid Waste and Construction and Demolition Waste.....	3.9-12
3.9.4.3	Assessment of Hazardous Environmental Conditions at Broadwater and Alternative 3 Sites.....	3.9-13
3.9.5	Telecommunications and Energy Systems.....	3.9-15
3.9.5.1	Telecommunications Service.....	3.9-15
3.9.5.2	Electrical Power.....	3.9-15
3.9.5.3	Natural Gas.....	3.9-16
3.10	Transportation.....	3.10-1
3.10.1	Highway Traffic.....	3.10-1
3.10.1.1	Highway System Inventory.....	3.10-1
3.10.1.2	Levels of Service in the ROI.....	3.10-1
3.10.1.3	Traffic Trends and Travel Patterns in the ROI.....	3.10-2
3.10.1.4	Commuting Travel Patterns.....	3.10-4
3.10.1.5	High Accident Areas.....	3.10-5
3.10.1.6	Roadway Improvement Plans.....	3.10-6
3.10.2	Railroads.....	3.10-7

3.10.3	Public Transportation.....	3.10-10
3.10.4	Pedestrian/Bicycle Circulation.....	3.10-11
3.10.5	Parking Management.....	3.10-12
3.10.6	Air Transportation.....	3.10-13
3.10.6.1	Gulfport–Biloxi Regional Airport.....	3.10-13
3.10.6.2	Keesler Air Force Base.....	3.10-14
3.11	Socioeconomics.....	3.11-1
3.11.1	Population.....	3.11-1
3.11.1.1	Population Trends.....	3.11-1
3.11.1.2	Population Estimates.....	3.11-3
3.11.2	Employment.....	3.11-5
3.11.2.1	Employment Trends.....	3.11-5
3.11.2.2	Labor Force and Unemployment Rates.....	3.11-6
3.11.2.3	Largest Employers.....	3.11-9
3.11.2.4	Income and Poverty Levels.....	3.11-10
3.11.3	Crime.....	3.11-11
3.11.4	Tourism.....	3.11-12
3.11.5	Housing.....	3.11-13
3.11.5.1	Overall Housing Stock.....	3.11-13
3.11.5.2	Single Family Home Market.....	3.11-14
3.11.5.3	Apartment Market.....	3.11-14
3.11.5.4	City of Biloxi Housing Market.....	3.11-15
3.11.5.5	Affordable Housing.....	3.11-16
3.11.5.6	City of Biloxi Affordable Housing Needs.....	3.11-16
3.11.6	Fiscal Environment.....	3.11-17
3.11.6.1	Local Government Revenues.....	3.11-17
3.11.6.2	Local Government Expenditures.....	3.11-18
3.12	Community Services and Facilities.....	3.12-1
3.12.1	Schools.....	3.12-1
3.12.1.1	K-12 Education Facilities.....	3.12-1
3.12.1.2	Public School Funding.....	3.12-3
3.12.1.3	Public Education Indicators.....	3.12-5
3.12.2	Public Safety.....	3.12-8
3.12.2.1	Public Safety Services and Facilities.....	3.12-8
3.12.2.2	Public Safety Indicators.....	3.12-9
3.12.2.3	Gaining Revenues for Public Safety.....	3.12-10
3.12.3	Recreation.....	3.12-12
3.12.3.1	Background and Methodology.....	3.12-12
3.12.3.2	Recreation Resource Supply.....	3.12-13
3.12.3.3	Recreation Resource Demand.....	3.12-15
3.12.3.4	Recreation Budgets.....	3.12-18

3.13	Environmental Justice and Effects on Children.....	3.13-1
3.13.1	Effects on Environmental Justice.....	3.13-1
3.13.2	Effects on Children.....	3.13-2
3.14	Visual Resources.....	3.14-1
3.13.3	Methodology.....	3.14-1
3.13.4	Setting and Context.....	3.14-2
3.13.5	Potentially Affected Viewsheds.....	3.14-3
3.15	Emergency Management.....	3.15-1
3.13.6	Hurricane Preparedness and Response.....	3.15-1
3.15.1.1	Hurricane Emergency Management Roles.....	3.15-2
3.15.1.2	Hurricane Evacuation Plans.....	3.15-2
3.15.1.3	Casinos and Marinas as Related to Hurricanes.....	3.15-5
3.13.7	Fire Services Related to Casino Resorts.....	3.15-5
3.13.8	Hazardous Material Transport.....	3.15-6
3.16	Waterborne Activity.....	3.16-1
3.13.9	Navigation.....	3.16-1
3.13.10	Commercial Fishing.....	3.16-2
3.17	Essential Fish Habitat – Affected Environment	3.17-1
Introduction	3.17-1
Affected Environment	3.17-2
4.0	ENVIRONMENTAL CONSEQUENCES AND MITIGATION MEASURES	4.1-1
4.1	Impacts on Coastal Processes.....	4.1-1
4.1.1	Impacts on Wave Conditions.....	4.1-1
4.1.2	Impacts on Coastal Sediment Transport and Beach.....	4.1-4
4.1.3	Impacts on Coastal Circulation.....	4.1-6
4.1.4	Impacts on Marina Circulation.....	4.1-8
4.1.5	Impacts on Storm Conditions and Hurricane Vulnerability.....	4.1-10
4.1.5.1	Impacts on Water Levels, Storm Surges, and Wind Conditions.....	4.1-10
4.1.5.2	Impacts on Hurricane Vulnerability.....	4.1-12
4.1.6	Indirect Effects.....	4.1-14
4.2	Impacts on Geology and Soils.....	4.2-1
4.2.1	Impacts on Erosion and Sedimentation.....	4.2-1
4.2.1.1	Direct Impacts	4.2-1
4.2.1.2	Indirect Impacts	4.2-2
4.2.2	Impacts on Extractable Resources.....	4.2-3

4.3	Impacts on Water Resources.....	4.3-1
4.3.1	Impacts on Groundwater.....	4.3-1
4.3.1.1	Direct Impacts.....	4.3-1
4.3.1.2	Indirect Impacts.....	4.3-2
4.3.2	Impacts on Surface Water Quality.....	4.3-3
4.3.2.1	Impacts of Point Source Discharges – Direct Impacts.....	4.3-4
4.3.2.2	Impacts of Point Source Discharges – Indirect Impacts.....	4.3-7
4.3.2.3	Impacts of Non-Point Sources – Stormwater Pollutant Loading.....	4.3-9
4.3.2.3.1	Direct Impacts on Stormwater Pollutant Loading.....	4.3-9
4.3.2.3.2	Indirect Impacts on Stormwater Pollutant Loading.....	4.3-14
4.3.2.4	Impacts of Non-Point Sources – Septic Systems.....	4.3-17
4.3.2.5	Impacts on Dredging Activity.....	4.3-18
4.3.3	Impacts on Coastal Water Quality.....	4.3-28
4.3.4	Impacts on Marina Water Quality Conditions.....	4.3-34
4.3.5	Mitigation.....	4.3-35
4.4	Impacts on Biological Resources.....	4.4-1
4.4.1	Impacts on Wetlands.....	4.4-1
4.4.1.1	Direct Impacts.....	4.4-1
4.4.1.2	Indirect Impacts – All Alternatives.....	4.4-3
4.4.2	Impacts on Terrestrial Resources.....	4.4-5
4.4.2.1	Direct Impacts.....	4.4-5
4.4.2.2	Indirect Impacts – All Alternatives.....	4.4-6
4.4.3	Impacts on Aquatic Resources.....	4.4-7
4.4.3.1	Direct Impacts.....	4.4-7
4.4.3.2	Indirect Impacts.....	4.4-15
4.4.4	Impacts on Threatened or Endangered (T&E) Species.....	4.4-17
4.4.4.1	Direct Impacts.....	4.4-17
4.4.4.2	Indirect Impacts – All Alternatives.....	4.4-22
4.4.5	Mitigation.....	4.4-26
4.4.5.1	Mitigation for Direct Impacts.....	4.4-26
4.4.5.2	Mitigation for Indirect Impacts.....	4.4-26
4.5	Impacts on Air Quality.....	4.5-1
4.5.1	Stationary Source Emission Impacts on Air Quality.....	4.5-1
4.5.2	Mobile Source Emission Impacts on Air Quality.....	4.5-2
4.5.2.1	Regional Evaluation of Roadway Emissions (Ozone).....	4.5-2
4.5.2.2	Localized Evaluation of Roadway Emissions (Carbon Monoxide).....	4.5-6
4.5.2.3	Parking Structure Emission Impacts on Air Quality.....	4.5-9
4.5.3	Breton Island National Wildlife Refuge	4.5-11

4.5.4	Mitigation.....	4.5-11
4.6	Impacts on Noise	4.6-1
4.6.1	Impacts on Noise Conditions by Construction Activity.....	4.6-1
4.6.2	Impacts on Noise Conditions by Traffic Volume.....	4.6-2
4.6.3	Impacts on Noise Conditions by Stationary/Area Sources.....	4.6-6
4.6.4	Mitigation.....	4.6-11
4.6.4.1	Traffic Management Measures.....	4.6-11
4.6.4.2	Horizontal/Vertical Realignment.....	4.6-11
4.6.4.3	Additional Acquisition for Abatement Features.....	4.6-11
4.6.4.4	Noise Barriers.....	4.6-12
4.6.4.5	Stationary/Area Sources.....	4.6-12
4.6.4.6	Unloading>Loading Operations.....	4.6-13
4.6.4.7	Mitigation Measures for Hurricane Park.....	4.6-13
4.6.4.8	Construction Mitigation Measures.....	4.6-14
4.7	Impacts on Cultural Resources.....	4.7-1
4.7.1	Impacts on Prehistoric Archeological Resources.....	4.7-1
4.7.2	Impacts on Historic Resources.....	4.7-1
4.7.3	Impacts on Other Resources	4.7-3
4.7.4	Mitigation.....	4.7-4
4.8	Impacts on Land Use.....	4.8-1
4.8.1	Consistency with Existing Land Use Controls.....	4.8-1
4.8.2	Impacts on Existing On-Site Uses.....	4.8-2
4.8.3	Impacts on Adjacent Land Uses.....	4.8-4
4.8.4	Impacts on Spin-Off Development.....	4.8-8
4.8.5	Mitigation.....	4.8-10
4.9	Impacts on Infrastructure.....	4.9-1
4.9.1	Impacts on Water Supply.....	4.9-1
4.9.1.1	Direct Impacts.....	4.9-1
4.9.1.2	Indirect and Cumulative Impacts.....	4.9-3
4.9.2	Impacts on Wastewater.....	4.9-5
4.9.2.1	Direct Impacts.....	4.9-5
4.9.2.2	Indirect and Cumulative Impacts.....	4.9-10
4.9.3	Impacts on Stormwater.....	4.9-12
4.9.3.1	Direct Impacts.....	4.9-13
4.9.3.2	Indirect Impacts.....	4.9-16
4.9.4	Impacts on Solid Waste and Hazardous Waste.....	4.9-17
4.9.5	Impacts on Telecommunications and Energy Systems.....	4.9-18
4.9.5.1	Impacts on System Capacity.....	4.9-19
4.9.6	Mitigation.....	4.9-20

4.10 Impacts on Transportation.....	4.10-1
4.10.1 Impacts on Roadway Traffic.....	4.10-1
4.10.1.1 Vehicle Trip Generation	4.10-1
4.10.1.2 Trip Distribution	4.10-3
4.10.1.3 Impacts on Roadway Congestion	4.10-5
4.10.1.4 Indirect Impacts on Highway Congestion	4.10-8
4.10.1.5 Construction Impacts	4.10-9
4.10.1.6 Traffic Analysis Summary	4.10-11
4.10.1.7 Concentrated Versus Dispersed Site Plan	4.10-11
4.10.1.8 US 90 Level of Service Near the Broadwater Site	4.10-12
4.10.1.9 Effects of East Harrison Connector	4.10-12
4.10.2 Impacts on Parking Convenience.....	4.10-13
4.10.3 Impacts on Pedestrian Travel.....	4.10-14
4.10.4 Impacts on Public Transportation.....	4.10-15
4.10.5 Impacts on Air Transportation.....	4.10-16
4.10.6 Mitigation Measures.....	4.10-17
4.11 Impacts on Socioeconomics.....	4.11-1
4.11.1 Nature of the Casino Industry and Growth.....	4.11-1
4.11.2 Methodology and Organization of this Analysis.....	4.11-2
4.11.3 Construction and Operational Impacts on Economic Output, Employment, and Employee Compensation.....	4.11-3
4.11.3.1 Alternatives 2, 4, and 5.....	4.11-5
4.11.3.2 Alternative 3.....	4.11-6
4.11.3.3 No-Action Alternative.....	4.11-7
4.11.4 Impacts on Population, Labor Force, Employment, and Households.....	4.11-7
4.11.4.1 Alternatives 2, 4, and 5.....	4.11-8
4.11.4.2 Alternative 3.....	4.11-9
4.11.4.3 No-Action Alternative.....	4.11-9
4.11.5 Impacts on Housing.....	4.11-10
4.11.5.1 Alternatives 2, 3, 4, and 5.....	4.11-10
4.11.5.2 No-Action Alternative.....	4.11-12
4.11.5.3 New Housing Construction Distribution.....	4.11-12
4.11.5.4 Housing Market Effects.....	4.11-13
4.11.6 Social Issues and Consequences of the Casino Industry and Growth.....	4.11-13
4.11.7 Impacts on Tourism.....	4.11-14
4.11.7.1 Alternatives 2, 4, and 5.....	4.11-14
4.11.7.2 Alternative 3.....	4.11-15
4.11.7.3 No-Action Alternative.....	4.11-15
4.11.8 Impacts on Fiscal Environments.....	4.11-15
4.11.8.1 Alternatives 2, 4, and 5.....	4.11-16
4.11.8.2 Alternative 3.....	4.11-17

4.11.8.3	No-Action Alternative.....	4.11-17
4.11.9	Mitigation.....	4.11-17
4.12	Impacts on Community Services and Facilities.....	4.12-1
4.12.1	Impacts on School Facilities.....	4.12-1
4.12.2	Impacts on Public Safety.....	4.12-3
4.12.3	Impacts on Recreation.....	4.12-6
4.12.4	Mitigation.....	4.12-11
4.13	Impacts on Environmental Justice and Children.....	4.13-1
4.13.1	Impacts on Environmental Justice.....	4.13-1
4.13.2	Impacts on Children.....	4.13-2
4.13.3	Mitigation.....	4.13-2
4.14	Impacts on Visual Resources.....	4.14-1
4.14.1	Impacts on Viewsheds.....	4.14-1
4.14.2	Impacts on Lighting.....	4.14-3
4.14.3	Mitigation.....	4.14-4
4.15	Impacts on Emergency Management.....	4.15-1
4.15.1	Impacts on Hurricane Evacuations.....	4.15-1
4.15.2	Impacts on Boat Evacuation	
4.15.3	Impacts on Fire Response to Casino Resorts.....	4.15-4
4.15.4	Impacts on Hazardous Material Transport Accident Response.....	4.15-5
4.15.5	Mitigation.....	4.15-7
4.16	Impacts on Waterborne Activity.....	4.16-1
4.16.1	Mitigation.....	4.16-3
4.17	Cumulative Impacts.....	4.17-1
4.17.1	Cumulative Impact Analysis.....	4.17-1
4.17.1.1	Affected Resources.....	4.17-1
4.17.1.2	Geographic and Time Boundaries.....	4.17-2
4.17.1.3	Past, Present, and Reasonably Foreseeable Future Actions.....	4.17-4
4.17.1.4	Methodology.....	4.17-4
4.17.2	Cumulative Impacts on Socioeconomic Resources.....	4.17-5
4.17.2.1	Past and Present Socioeconomic Conditions.....	4.17-5
4.17.2.2	Future Socioeconomic Conditions.....	4.17-6
4.17.2.3	Other Foreseeable Development Projects.....	4.17-6
4.17.2.4	Cumulative Effects on Employment.....	4.17-7
4.17.2.5	Cumulative Effects on Economic Output, Employment, And Employee Compensation.....	4.17-8
4.17.2.6	Cumulative Effects on Population, Labor Force,	

	Employment, and Households.....	4.17-8
4.17.2.7	Cumulative Effects on Housing.....	4.17-9
4.17.2.8	Cumulative Effects on Social Issues.....	4.17-9
4.17.2.9	Cumulative Effects on Fiscal Environments.....	4.17-9
4.17.2.10	Summary.....	4.17-9
4.17.3	Cumulative Impacts on Traffic and Transportation.....	4.17-10
4.17.3.1	The Past.....	4.17-10
4.17.3.2	The Present.....	4.17-10
4.17.3.3	The Future.....	4.17-11
4.17.4	Cumulative Impacts on Water Quality.....	4.17-12
4.17.5	Cumulative Impacts on Biological Resources.....	4.17-14
4.17.5.1	Cumulative Impacts on Wetlands.....	4.17-15
4.17.5.2	Cumulative Impacts on Threatened and Endangered Species.....	4.17-17
4.17.5.3	Cumulative Impacts on Essential Fish Habitat (EFH)...	4.17-18
4.18	Essential Fish Habitat – Impacts	4.18-1
4.18.1	Direct Impacts	4.18-1
4.18.2	Indirect Impacts	4.18-3
4.18.3	Cumulative Effects	4.18-5
4.18.4	Fishery Management Council Views Regarding Project Effects on EFH	4.18-6
4.18.5	Proposed Mitigation	4.18-6
5.0	MITIGATION.....	5.0-1
5.1	Description of Proposed Mitigation Plan.....	5.1-1
5.1.1	On-Site Measures.....	5.1-1
5.1.1.1	Restoration of Existing Marina Basin.....	5.1-2
5.1.1.2	Breakwater Enhancements.....	5.1-4
5.1.2	Off-Site Measures.....	5.1-4
5.1.2.1	Mitigation Fund.....	5.1-4
5.1.2.2	Deer Island Acquisition and Preservation.....	5.1-5
5.2	Effectiveness of Proposed Mitigation Program.....	5.2-1
5.2.1	On-Site Mitigation.....	5.2-2
5.2.2	Off-Site Mitigation.....	5.2-5
5.3	Consistency with Federal Policies and Comments.....	5.3-1
5.3.1	Federal Mitigation Policies.....	5.3-1
5.3.2	Agency Comments.....	5.3-5
5.3.3	Consistency of Proposed Mitigation Measures with Agency Policies and Comments	5.3-7
5.3.3.1	Non-Tidal Wetland Creation	5.3-7
5.3.3.2	On-Site Shallow Water Habitat Restoration and Creation.....	5.3-8
5.2.3.3	Off-Site Seagrass Restoration and	

	Deer Island Acquisition and Preservation	5.2-8
5.4	Alternative Measures	5.4-1
6.0	LITERATURE CITED.....	6-1

LIST OF FIGURES

1.0 PURPOSE OF AND NEED FOR ACTION

- 1.2-1 Project location

2.0 ALTERNATIVES INCLUDING THE PROPOSED ACTION

- 2.2-1 Existing Broadwater site features and context
- 2.2-2 Alternative 2 – General site plan
- 2.2-3 Alternative 2 – Site plan for waterside development (letters refer to Table 2.2-2)
- 2.2-4 Alternative 2 cross-section
- 2.2-5 Alternative 2 – Site plan for landside development (letters refer to Table 2.2-2)
- 2.2-6 Alternative casino sites identified by various siting criteria with waterfront zoning in the city of Biloxi
- 2.2-7 Alternative 3 – Site A site plan
- 2.2-8 Alternative 3 – Site B site plan
- 2.2-9 Alternative 3 – Site C site plan
- 2.2-10 Alternative 3 – Site D site plan
- 2.2-11 Alternative 3 – Site E site plan
- 2.2-12 Alternative 3 – Site F site plan
- 2.2-13 Alternative 4 – General site plan
- 2.2-14 Alternative 4 – Site plan for waterside development (letters refer to Table 2.2-6)
- 2.2-15 Alternative 4 – Site plan for landside development (letters refer to Table 2.2-6)
- 2.2-16 Alternative 5 – General site plan
- 2.2-17 Alternative 5 – Site plan for waterside development (letters refer to Table 2.2-7)
- 2.2-18 Alternative 5 – Site plan for landside development (letters refer to Table 2.2-7)

3.0 AFFECTED ENVIRONMENT

- 3.1-1 Mississippi Sound and vicinity
- 3.1-2 Wave penetration through barrier islands
- 3.1-3 Wave rose for wind-generated waves in Mississippi Sound
- 3.1-4 Cross-shore distribution of cumulative gross and net sediment transport
- 3.1-5 Potential sediment transport rates; $H_{mo} = 0.75$ ft., $T_p = 3.5$ sec., and water level = 0.24 ft. NGVD
- 3.1-6 Potential sediment transport rates; $H_{mo} = 3.00$ ft., $T_p = 4.0$ sec., and water level = 1.24 ft. NGVD

- 3.1-7 Potential sediment transport rates; $H_{mo} = 5.50$ ft., $T_p = 6.0$ sec., and water level = 4.24 ft. NGVD
- 3.1-8 Path of loop current in the upper Gulf of Mexico
- 3.1-9 Tidal and wind-driven currents during a) ebb cycle and b) flood cycle
- 3.1-10 Tidal and wind-driven currents during the flood cycle of a neap tide
- 3.1-11 Tidal and wind-driven currents during ebb cycle of a neap tide
- 3.1-12 Tidal and wind-driven currents during the flood cycle of a spring tide
- 3.1-13 Tidal and wind-driven currents during the ebb cycle of a spring tide
- 3.1-14 Yearly weighted, wave-driven current patterns
- 3.1-15 Yearly weighted, wave-driven current patterns
- 3.1-16 Flushing times within Broadwater Treasure Bay embayment
- 3.1-17 Flood zones for Broadwater property
- 3.1-18 Wave vector plot of existing Broadwater Marina and surrounding shoreline; $H_{mo} = 6.50$ ft., $T_p = 7.0$ sec., and water level = 8.24 ft. NGVD
- 3.3-1 Hydrologic basins and sub-basins in the Mississippi coastal county area
- 3.3-2 Beach Monitoring Program water quality sampling stations, Mississippi and Back Bay
- 3.3-3 Point source data in the Mississippi coastal county area
- 3.3-4 Permitted discharge sites and wastewater treatment plants in the city of Biloxi
- 3.3-5 Existing stormwater drainage regions at the Broadwater site
- 3.3-6 Sewered and septic areas in the Mississippi coastal county area
- 3.4-1 Wetlands of the Broadwater site
- 3.6-1 Noise levels for common outdoor and indoor situations (dBA)
- 3.8-1 Keesler AFB development considerations
- 3.8-2 City of Biloxi annexed areas
- 3.8-3 Bayview Avenue Extension
- 3.9-1 Possible wastewater routing to HCWSWMD WWTPs
- 3.10-1 Major roadways in the primary ROI
- 3.10-2 Major roadways in the secondary ROI
- 3.10-3 Walking distance standard
- 3.12-1 Public marina locations
- 3.12-2 Public boat launch locations
- 3.12-3 Public fishing pier locations
- 3.13-1 City of Biloxi census tracts with a high percentage of minorities and low per capita incomes
- 3.14-1 City of Biloxi area photograph locations
- 3.15-1 Harrison County hurricane evacuation routes

- 3.16-1 Navigation channels in the Mississippi coastal county area
- 3.17-1 Selected biological sampling points of the Gulf of Mexico Estuarine Inventory (GMEI) and Gulf Coast Research Laboratory

4.0 ENVIRONMENTAL CONSEQUENCES AND MITIGATION MEASURES

- 4.1-1 Wave heights and directions for the existing Broadwater Marina; $H_{mo} = 1.5$ ft., $T_p = 3.5$ sec., and water level = 0.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-2 Wave heights and directions for Alternative 2; $H_{mo} = 1.5$ ft., $T_p = 3.5$ sec., and water level = 0.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-3 Wave heights and directions for existing Broadwater Marina; $H_{mo} = 5.5$ ft., $T_p = 6.0$ sec., and water level = 4.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-4 Wave heights and directions for Alternative 2; $H_{mo} = 5.5$ ft., $T_p = 6.0$ sec., and water level = 4.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-5 Potential sediment transport for the existing Broadwater Marina; $H_{mo} = 1.5$ ft., $T_p = 3.5$ sec., and water level = 0.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-6 Potential sediment transport for Alternative 2; $H_{mo} = 1.5$ ft., $T_p = 3.5$ sec., and water level = 0.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-7 Potential sediment transport for the existing Broadwater Marina; $H_{mo} = 5.5$ ft., $T_p = 6.0$ sec., and water level = 4.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-8 Potential sediment transport for Alternative 2; $H_{mo} = 5.5$ ft., $T_p = 6.0$ sec., and water level = 4.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-9 Tidal and wind-driven currents during flood cycle of neap tide for Alternative 2
- 4.1-10 Tidal and wind-driven currents during ebb cycle of neap tide for Alternative 2
- 4.1-11 Tidal and wind-driven currents during flood cycle of spring tide for Alternative 2
- 4.1-12 Tidal and wind-driven currents during ebb cycle of spring tide for Alternative 2
- 4.1-13 Yearly weighted, wave-driven currents for the existing Broadwater Marina
- 4.1-14 Yearly weighted, wave-driven currents for Alternative 2
- 4.1-15 Tidal currents within the marina basin of Alternative 2 during the ebb cycle of the neap tide (no-wind scenario)
- 4.1-16 Water exchange times for proposed stormwater management facility
- 4.1-17 Hurricane wave heights for the existing Broadwater Marina; $H_{mo} = 6.50$ ft., $T_p = 7.0$ sec., and water level = 8.24 ft. NGVD, wave direction = 157.50 degrees
- 4.1-18 Hurricane wave heights for Alternative 2; $H_{mo} = 6.50$ ft., $T_p = 7.0$ sec., and water level = 8.24 ft. NGVD, wave direction = 157.50 degrees
- 4.3-1 Flushing times for proposed and mitigated beach
- 4.3-2 Dissolve oxygen concentration (mg/l) during ebb flow of neap tidal cycle (without aeration)

- 4.3-3 Dissolve oxygen concentration (mg/l) during ebb cycle of neap tide cycle (with aeration)
- 4.3-4 Dissolve oxygen concentration (mg/l) during ebb cycle of neap tide cycle (without aeration)
- 4.5-1 Alternatives 2, 4, and 5 - Worst-case carbon monoxide concentration sites
- 4.5-2 Alternative 3 – Worst-case carbon monoxide concentration sites
- 4.7-1 Existing conditions looking southeast from Beauvoir
- 4.7-2 Visual simulation of Alternative 2, 4, and 5 looking southeast from Beauvoir
- 4.7-3 Existing conditions looking east northeast from Old Brick House
- 4.7-4 Visual simulation of Alternative 3 looking east northeast from Old Brick House
- 4.10-1 Study area for US 90 arterial study
- 4.10-2 East Harrison County connector alignment - alternative corridors
- 4.14-1 City of Biloxi are photograph locations
- 4.14-2 Existing conditions looking east (refer to camera location 1 on Figure 4.14-1)
- 4.14-3 Visual simulation of Alternative 2 looking east (refer to camera location 1 on Figure 4.14-1)
- 4.14-4 Visual simulation of Alternative 4 looking east (refer to camera location 1 on Figure 4.14-1)
- 4.14-5 Visual simulation of Alternative 5 looking east (refer to camera location 1 on Figure 4.14-1)
- 4.14-6 Existing conditions looking west (refer to camera location 2 on Figure 4.14-1)
- 4.14-7 Visual simulation of Alternative 2 looking west (refer to camera location 2 on Figure 4.14-1)
- 4.14-8 Visual simulation of Alternative 4 looking west (refer to camera location 2 on Figure 4.14-1)
- 4.14-9 Visual simulation of Alternative 5 looking west (refer to location 2 on Figure 4.14-1)
- 4.14-10 Existing conditions looking west (refer to location 3 on Figure 4.14-1)
- 4.14-11 Visual simulation of Alternative 2 looking west (refer to camera location 3 on Figure 4.14-1)
- 4.14-12 Visual simulation of Alternative 4 looking west (refer to camera location 3 on Figure 4.14-1)
- 4.14-13 Visual simulation of Alternative 5 looking west (refer to camera location 3 on Figure 4.14-1)
- 4.14-14 Existing conditions looking southwest (refer to camera location 4 on Figure 4.14-1)
- 4.14-15 Visual simulation of Alternative 3 looking southwest (refer to camera location 4 on Figure 4.14-1)
- 4.14-16 Existing conditions looking southwest (refer to camera location 5 on Figure 4.14-1)
- 4.14-17 Visual simulation of Alternative 3 looking southwest (refer to camera location 5 on Figure 4.14-1)
- 4.14-18 Existing conditions looking south southwest (refer to camera location 6 on

- Figure 4.14-1)
- 4.14-19 Visual simulation of Alternative 3 looking south southwest (refer to camera location 6 on Figure 4.14-1)
 - 4.14-20 Existing conditions looking south (refer to camera location 7 on Figure 4.14-1)
 - 4.14-21 Visual simulation of Alternative 3 looking south (refer to camera location 7 on Figure 4.14-1)
 - 4.14-22 Existing conditions looking southeast (refer to camera location 8 on Figure 4.14-1)
 - 4.14-23 Visual simulation of Alternative 3 looking southeast (refer to camera location 8 on Figure 4.14-1)

5.0 MITIGATION

- 5.1-1 On-site mitigation components
- 5.1-2 Broadwater marina restoration plan
- 5.1-3 Broadwater marina restoration plan cross-section A-A'
- 5.1-4 Typical breakwater enhancement sections
- 5.1-5 Deer Island parcel acquisition
- 5.1-6 Biotic communities of Deer Island
